Masruk Habib

Computer Engineer | R&D Engineer — AI/ML, LLMs & RAG | Data Analyst | Researcher

Gulshan, Dhaka, Bangladesh · +880 1580-996266 · masrukjim@gmail.com · LinkedIn · GitHub · Google Scholar · Portfolio

PROFILE

AI/ML engineer and IEEE-published researcher with a B.Tech in Computer Engineering, currently building production AI systems as a Research & Development Engineer at GoScurry.ai. Specialised in Large Language Models, Retrieval-Augmented Generation and intelligent automation, with industry experience spanning AI product development, business data analytics and Python backend engineering. Five research publications in healthcare and applied AI, 37 training sessions delivered as a student research mentor, and a state-level hackathon win.

PROFESSIONAL EXPERIENCE

Research & Development Engineer · GoScurry.ai — **Apr 2026 — Present**

Dhaka, Bangladesh

- Build AI-driven products using Large Language Models, RAG pipelines and intelligent automation.
- Design practical AI systems that enhance productivity, communication and business intelligence.
- Develop and integrate advanced AI applications from research prototype through to deployable product.

Data Analyst · Jatri — **Sep 2025 — Apr 2026**

Gulshan, Dhaka, Bangladesh

- Analysed sales, marketing, finance and supply-chain data to support business decision-making.
- Built dashboards, automated reporting systems and executive business summaries.
- Tracked KPIs including sales growth, inventory levels and market trends; analysed customer behaviour and promotional performance.
- Supported demand forecasting and sales planning; identified business trends, risks and growth opportunities.
- Partnered with cross-functional teams to meet data needs and maintained data accuracy and consistency across systems.

Backend Developer · CRM Squirrel — **Aug 2025 — Sep 2025**

Lampang, Thailand (Remote)

- Contributed to backend development, API integration and scalable system design using Python-based technologies.
- Shipped backend services powering core CRM workflows.

Student Research Mentor · Dept. of Computer Engineering, Marwadi University — **Nov 2023 — Apr 2025**

Rajkot, Gujarat, India

- Guided 3 batches of students through the full research-paper writing and publication process.
- Delivered 37 sessions at the Research Activity Club (RAC) on machine-learning implementation and technical writing.
- Co-authored and published 2 research papers in collaboration with international students.

Research Intern — SRIT · Dept. of Computer Engineering, Marwadi University — **May 2024 — Jun 2024**

Rajkot, Gujarat, India

- Authored and published 1 research paper during the internship under expert mentorship.

EDUCATION

Bachelor of Technology — Computer Engineering — **Nov 2021 — Jun 2025**

Marwadi University, Rajkot, Gujarat, India · CGPA 7.64 / 10.00 — First Class with Distinction

Higher Secondary (HSC) & Secondary School (SSC) — Science — **2018 & 2020**

BIAM Model School and College, Bogura, Bangladesh · GPA 5.00 / 5.00 in both SSC and HSC

TECHNICAL SKILLS

AI / ML	Machine Learning, Deep Learning, Large Language Models, RAG systems, Predictive Modelling, Hyperparameter Tuning, Anomaly Detection, Time-Series (ARIMA / LSTM)
Programming	Python, SQL, Object-Oriented Programming
Development	Django, Flask, Streamlit, REST APIs, Git & GitHub, Web Development, UI/UX
Data & BI	Data Analysis, Tableau, Dashboarding, KPI Tracking, Forecasting, Data Storytelling, Google Sheets, Google Analytics, Microsoft Office
Cloud & Infra	AWS, Oracle SQL, Postman, Linux, Networking fundamentals (CCNA)
Languages	Bengali (native) · English (full professional) · Hindi (elementary)

PUBLICATIONS

Machine Learning Classifiers and Hyperparameter Tuning to Enhance Prediction of ASD: An Automated Django Application
2024 2nd World Conference on Communication & Computing (WCONF), IEEE · DOI: 10.1109/WCONF61366.2024.10692172

Predicting Psychological Well-being Using Machine Learning with Hybrid Hyperparameter Tuning Techniques
2024 International Conference on Artificial Intelligence and Emerging Technology (Global AI Summit), IEEE · DOI: 10.1109/GlobalAISummit62156.2024.10947775

A Comparative Study on Hybrid Machine Learning Voting Classifier Models for Alzheimer's Disease Prediction
2023 International Conference on AI for Innovations in Healthcare (ICAIIHI), IEEE · DOI: 10.1109/ICAIIHI57871.2023.10489772

Augmenting Human Capabilities: AI's Impact on Collaborative Workflows

A Roadmap to a Sustainable Future: Empowering Businesses and Consumers Through AI-Driven Green Marketing

SELECTED PROJECTS

MediGuard AI — Drug & Side-Effect Predictor with RAG Chat Assistant github.com/MediGuardAI
Led development of an LLM-driven drug interaction and side-effect predictor combining a fine-tuned LLM, data preprocessing and RAG-based chat assistance to deliver real-time, patient-specific medication safety insights through a Streamlit web application.

Multilingual Retrieval-Augmented Generation (RAG) System github.com/MasrukHabib/Multilingual-Retrieval-Augmented-Generation-RAG-System
Built a RAG system that answers questions across languages, combining embeddings, vector search and prompt engineering to produce grounded, source-backed responses.

UR3 CobotOps — Enhancing Cobot Efficiency with ML github.com/MasrukHabib/UR3-CobotOps-Enhancing-Cobot-Efficiency-with-ML
Implemented ARIMA, LSTM, K-Means and classification models to improve UR3 collaborative-robot operations, targeting predictive maintenance, real-time anomaly detection and error prediction on the UCI Machine Learning Repository dataset.

ASD Predictor — Automated Django Application github.com/MasrukHabib/ASD_Predictor_ML_Django_App
Built a Django-based predictive system for early Autism Spectrum Disorder detection using SVM, Logistic Regression, Extra Trees and Decision Trees on UCI data, reaching perfect precision and recall after hyperparameter tuning. Published at 2024 2nd WCONF (IEEE).

Psychological Well-being Prediction with Hybrid Hyperparameter Tuning github.com/MasrukHabib/Psychological_Wellbeingness_Prediction
Created an ML web application for well-being prediction using Logistic Regression, Decision Trees, Random Forest, Gradient Boosting and SVM, with hybrid tuning via Grid Search, Random Search and Bayesian Optimisation to support mental-health professionals.

Hypothyroidism Prediction — Real-Time Flask Web Application
Collaborated on a research-based real-time Flask application for hypothyroidism prediction, fusing multiple machine-learning techniques with hyperparameter tuning for accurate, reliable health assessments.

Phishing Website Detection using Machine Learning github.com/MasrukHabib/Phishing-website-detection-using-machine-learning
Developed a machine-learning classifier that flags malicious websites from URL and page-level features, with feature engineering to catch phishing attempts before a user clicks.

Tableau Public Dashboards public.tableau.com/app/profile/masruk.habib
Designed and deployed interactive dashboards for Marketing Campaign Overview & Analytics, Sales Superstore History, and HR Analytics & Operational HR, visualising key performance indicators to drive data-driven decisions.

CERTIFICATIONS

Explore Machine Learning using Python — Infosys Springboard, Sep 2024
AWS Academy Graduate — Cloud Foundations — Amazon Web Services, Oct 2023
Database Programming with SQL — Oracle Academy, Nov 2022
Python Data Structures — Coursera, Aug 2022
Digital Security Essentials
Student Research Internship Training (SRIT) — Marwadi University, Jul 2024
CCNAv7: Introduction to Networks — Cisco Networking Academy, Feb 2023
Postman API Fundamentals Student Expert — Postman, Apr 2023
Programming for Everybody — Coursera, Jul 2022
Claude Code 101 — Certificate of Completion
The Complete Tableau Bootcamp for Aspiring Data Scientists — Infosys Springboard, Mar 2023
NDG Linux Essentials — Cisco Networking Academy, Apr 2023
Project Management Foundations — LinkedIn, Jul 2023
Machine Learning with Python: Foundations

AWARDS

Winner — Azadi Ka Amrit Mahotsav Hackathon 2022 · Government of Gujarat **Mar 2023**
Awarded the winning prize at this state-level event as part of an award-winning team, for an innovative project with practical real-world impact.
